

Efficient Rod Processing

**for caravans
and camper vans**

**Cutting to length – punching
milling – drilling - printing**

**Efficient programming for
series production**

**The Stegherr NC Mitre Saw can cut profiles of wood, MDF, pvc, aluminum, fiberglass and composite materials accurately and neatly.
An upgrade to fully automated online controlled operation is also available.**

Interested? Come and see us. We will be happy to demonstrate you the capabilities of our NC Mitre Saws and Profile Processing Center in our show room.
