

Alu-Center GLS-2

Modern fully automatic processing of profiled stock for aluminum clad wood or vinyl windows

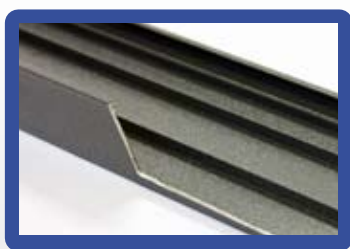

With the Stegherr Alu-Centre GLS-2 the aluminium profiles can be cut at any angle between +/- 45 in two planes using the machine program controller.

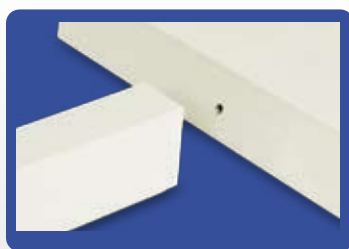

An upgrade to fully automated online controlled operation is also available.

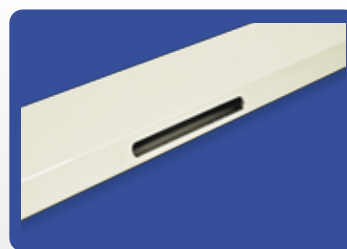

Cutting to length - punching - milling - drilling - printing

punching

drilling

milling

Interested? Come to a live demonstration of our NC Mitre Saws and Profile Processing Centers in our show room. We will be happy to show you the capabilities of our machines.
